STRUCTURAL ENGINEER SERVICES

WE PROVIDE STANDARD DESIGN SERVICE IN:

Our Team key Projects, we do structural design with our associated, professional sound, reliable engineer who are good at safe & economic design.

We'll jump into this here.

Our Structural engineers focuses heavily on good construction design ensuring all loads and forces are accounted for on the construction plans. They can be found working on any project that has to do with the development of existing and proposed structures.

ABOUT INTERIOR DESIGN

We infuse a touch of client's personality into a space! While interior design is about making a space feel like a cohesive whole, with the exterior as well as functionality of the building, it is also about invoking a feeling.

Noor Construction Co. aims to create wellness spaces that allow the occupant to 'feel good'.

We make interior spaces functional, safe, and beautiful for almost every type of building. Our Interior designers make indoor spaces functional, safe, and beautiful by determining space requirements & selecting essential and decorative items, such as colors, lighting, and materials.

We provide our customers with the highest level of service in construction planner works. We provide excellent and guarantee consistently superior quality services and unbeatable value for money. Our reputation has been established in the provision of best construction services with the most focus on customer care and support. We provide 100% unbiased support at all times.

Covering all services of construction, we aim to provide quality service to our customers. Whatever your requirements, we guarantee excellent service availability, service reliability and overall afford-ability.

We start with our client's vision in mind! At Noor Construction Co., the construction process is completely transparent. Our clients are informed about material specifications and vendors beforehand. Having an in-house construction company in Pakistan gives the added advantage of smooth project delivery and design implementation during turnkey projects. Our engineers and architects work holistically so that even the most complicated of designs (which are also usually the most innovative) is refined and implemented on-site.
